12 O'CLOCK GOLD TAB & 360° PERIMETER UNZIP SEQUENCE

MINIMALIST "P&W" CENTER MEDALLION

PANEL 1
01. SEALED IN COLLECTOR BOX

PANEL 2
02. LIFT PUCK BY GOLD TAB

PANEL 3
03. PULL TAB TO START PERIMETER UNZIP

PANEL 4
04. UNZIPS AROUND SIDE & BOTTOM VENTS

PANEL 5
05. SLIP 1-PIECE WRAP OFF

PANEL 6
06. 360° AIRFLOW ACTIVE

PANEL 01
Sealed In Box
Minimalist **Matte Obsidian "P&W" center disc** stays 100% unobstructed. Only the rounded **12 o'clock Gold Tab** rises from the outer ring.

PANEL 02
Lift By Gold Tab
Customer pinches the **12 o'clock Brushed-Gold tab** to effortlessly lift the snug puck straight up and out of the foam cavity.

PANEL 03
Start Perimeter Unzip
Pulling the 12 o'clock tab downward starts unzipping the seal **around the outer gold perimeter** (never crossing the center "P&W" disc).

PANEL 04
Unzips Side & Bottom
The perimeter tear-line unzips cleanly around the **knurled side slots and bottom bezel**, releasing the 360° hermetic barrier.

PANEL 05
Slip 1-Piece Wrap Off
The loosened 1-piece contoured sleeve **slides cleanly off in a single sheet**, exposing the shiny champagne-gold micro-vents.

PANEL 06
360° Airflow Active
All **360 top & bottom holes + 4 side slots** are open with zero sticky residue on the Matte Obsidian or Brushed Gold finish.

Center Medallion Spec: Minimalist Matte Obsidian Disc w/ Subtle Gold "P&W" Monogram (Zero Shields/Sticks) **Tab Position:** 12 O'Clock Outer Bezel Loop **Unzip Path:** 360° Outer Perimeter Rim

QUICK-GLANCE 3-STEP ACTIVATION SUMMARY (MINIMALIST "P&W" DISC)

FACTORY SPEC + CUSTOMER REMOVAL GUIDE

PANEL 1
01. HERMETICALLY SEALED

PANEL 2
02. PEEL TO ACTIVATE

PANEL 3
03. 360° AIRFLOW

STEP 01 • IN THE COLLECTOR BOX

Hermetically Sealed at Factory

The two puck halves are **permanently thread-locked** around the 40g Virgin Coconut Carbon + **ZeoCarb-98™ (Metazene®)** pouch. The contoured barrier seals the top, side, and bottom vents while keeping the **minimalist Matte Obsidian "P&W" center disc 100% visible**, with the **Brushed-Gold Tab** at 12 o'clock.

STEP 02 • CUSTOMER UNBOXING RITUAL

Pinch 12 O'Clock Gold Tab & Peel

To activate the puck, the customer lifts the puck by the raised **"PULL TO ACTIVATE"** gold tab and peels around the outer perimeter rim in one continuous motion—unzipping the top, side, and bottom vent barrier with **zero sticky residue**.

STEP 03 • 3-AXIS ODOR ELIMINATION

360° Airflow Active (No Upside Down)

Removing the seal immediately opens all **360 micro-perforations + 4 side cross-vents**. Air circulates freely through the internal dust mesh and across the **ZeoCarb-98™** carbon core for 6+ months inside hockey bags, skate boots, gym lockers, or car trunks.

Seal Material: Contoured High-Barrier Film + Matte-Black/Gold Bezel Ring & 12 O'Clock Gold Tab

Adhesive: Clean-Peel Zero-Residue Release

Added Unit Cost: ~$0.05–$0.06 / Puck
