Option 02 • The Diptyque Paris Maison Look & Function

An Olfactory Maison of Light, Shadow & Story.

Why Diptyque feels like a Parisian art gallery rather than a standard e-commerce template: the page unfolds in **contrasting tonal chapters**—warm parchment gallery spreads for botanical soy candles, paired with dramatic deep-obsidian "Cabinet of Curiosities" panels for our Swiss-inspired **Lauson-98™ Odor Hardware**, signature oval medallion frames, and numbered olfactory editions.
