

HIS & HERS DUAL ARCHITECTURE • 100% AMERICAN SOY WAX

OPTION 01 • THE JO MALONE LONDON EDITORIAL LOOK

Tailored British Cream, Crisp Black Lines & Quiet Contrast.

Why Jo Malone feels so effortlessly luxurious: instead of placing black products against a dark black background (which flattens depth), a **Warm Alabaster & Cream Gallery Canvas (#FAF7F2)** with razor-sharp **1px Black Architectural Borders** makes both our Matte Obsidian and Warm Frosted Ivory vessels pop like physical sculptures.

WHY JO MALONE WORKS SO WELL

How This Solves the "One-Dimensional" Feel

1. Warm Cream vs. Obsidian Contrast: On an all-black website, black jars and black boxes blend into the background. On Jo Malone's warm cream paper canvas (`#FAF7F2`), both the Matte Obsidian and Frosted Ivory pieces command instant visual authority.

2. 1px Architectural Framing: Replaces glowing gold gradients and dark rounded cards with crisp 1px solid black borders and editorial serif typography.

3. Simplified Card Hierarchy: Cards show only the photo, scent name, italicized tasting notes, weight/price, and a single crisp button.

4. Interactive Scent & Box Suite: Turns the $98 Box Builder into a 3-step British bespoke gifting ritual.
